A proud winner displays her door prize

E Renae' Antalan "Mama Drill" delivers an awe inspiring and motivating keynote

Sponsored by the Manufacturing Technology Advisory Group (MTAG), The National Resource Center for Materials Science Technology Education (MatEd), and Edmonds Community College, Career Connections: *Beginning the Conversation*, a conference for career advisors was held at Edmonds Community College on May 1, 2012. This first in a series brought together over 60 career advisors from around Washington to learn and discuss opportunities for advising students on careers in manufacturing technologies. Comments heard: "Really great stuff! Keep bringing it on!", "I am looking forward to having a series of these", "Very Good Program and great sharing information."
